

Extendible Siphon Coupler

Extendible, polypropylene hose with injected couplers for sanitary drains.

Applications

► Sink drains, such as a siphon drain.

Features

- Extendible, polypropylene hose with an injected coupler in polypropylene for drain connection, and a metal fitting in brass, or a plastic fitting to connect to a sink.
- Highly flexible, easy to use, and with connections that adapt to any type of sink drain.
- Extendible from 30cm to 80cm.
- Injected connections in the hose such that it is perfectly watertight.
- Good chemical resistance associated with polypropylene's resistance chart, especially to bleaches, detergents and hypochlorites.
- Withstands temperatures between -10°C and 90°C.
- Packaged with two joins.
