

Orange Vision

The hose with **patented technology** that **prevents knots and kinks** during installation. Unique manageability and flexibility in low-temperature environments. Thanks to its braided textile reinforcement and latex-touch materials, it prevents the formation of knots and kinks during use.

Features

- Fluorine, high visibility, anti-abrasion.
- High resistance to breakage under elongation, kinks, and twists.
- Hard to kink, yet very flexible and manageable.
- Withstands temperatures between -20°C to +60°C.
- Pipe with good chemical resistance, associated with the usual properties of PVC.

Applications

- ▶ Gardening, horticulture, and floriculture irrigation.
- ▶ Cleaning of recreational boats.
- ▶ Usage in construction sites and quarries.
- ▶ Especially designed for use in environments where hose safety and visibility are a priority
- ▶ Reduces the risk of workplace and everyday accidents in environments with special usage conditions, such as public works, quarries, and construction.

Ø EXT mm	Ø INT. in	WEIGHT g/m	OPERATING PRESSURE mm
18.8	5/8"	150	8
25	3/4"	250	8
31.8	1"	370	6

Pressure at room temperature in laboratory / Nominal values without considering manufacturing tolerances. Depending on technical developments, specifications may be modified without advance notice being given. Consult us for other diameters, colours and features. Ask our Sales Department about the minimum purchase amounts assigned to non-standard diameters.
