

# Yellow Vision

The hose with **patented technology** that **prevents knots and kinks** in your garden. Unique manageability and flexibility. Thanks to its braided textile reinforcement and latex-like materials, it prevents the formation of knots and kinks during use.

Hose made of fluorVision next-generation material.

High day and night visibility.

## Features

- Anti-UV, anti-algae, fluorine, latex touch.
- High resistance to breakage under elongation, kinks, and twists.
- Hard to kink, yet very flexible and manageable.
- Withstands temperatures between -20°C to +60°C.
- Pipe with good chemical resistance, associated with the usual properties of PVC.

DOMESTIC USE

FOOD-GRADE USE

HIGH MANAGEABILITY

HIGH FLEXIBILITY

ANTI-UV PROTECTION

TEMPERATURE -20°C A 60°C

HIGH QUALITY CONTROL

## Applications

- ▶ Garden, horticulture, and floriculture irrigation.
- ▶ Cleaning of recreational boats.
- ▶ Use in construction sites and quarries.
- ▶ Especially designed for use in environments where ensuring the hose's safety and visibility is required.

Ø EXT mm	Ø INT. in	WEIGHT g/m	OPERATING PRESSURE mm
18.8	5/8"	150	8
25	3/4"	250	8
31.8	1"	370	6

Pressure at room temperature in laboratory / Nominal values without considering manufacturing tolerances. Depending on technical developments, specifications may be modified without advance notice being given. Consult us for other diameters, colours and features. Ask our Sales Department about the minimum purchase amounts assigned to non-standard diameters.
